

I'm in support of the fireworks bill passing. It keeps the money in our own state, keeps illegal homemade fireworks at bay and also brings in much needed tax revenue so it give the city a little extra bonus in July. I sit on many safety boards for the fireworks industry and I'm also in communication with Chinese factories and government officials and I'm here to tell you the fireworks have never been safer and they have never been more beautiful than the ones that are produced today. I hope we all see that Independence Day is about our freedom that we seem to give up so easily these days. Thanks for your time.
